## AUDIT SUMMARY

### Results in brief

Based on the procedures performed, except as described below, nothing came to our attention in the areas we reviewed that caused us to believe the District was not in substantial compliance with applicable state laws, regulations, and its own policies, or had significant weaknesses in controls over the safeguarding of public resources. Had we performed additional procedures, other matters might have come to our attention that would have been reported.

As referenced above, we noted certain matters related to tracking local revenues and expenditures in a sub-fund of the General Fund that we communicated to the District's management and Board of Directors in a letter October 1, 2020. We appreciate the District's commitment to resolving those matters.

### About the assessment audit

This report contains the results of our independent audit of Grapeview School District No. 54 from September 1, 2018 through August 31, 2019.

Management is responsible for ensuring compliance and adequate safeguarding of public resources from fraud, loss or abuse. This includes the design, implementation and maintenance of internal controls relevant to these objectives. School Districts are also required by state law (WAC 392-117-035) to prepare and submit certified annual reports to the Office of the Superintendent of Public Instruction (OSPI) detailing the District's revenues and other financing sources, expenditures and other financing uses, assets, liabilities, financial condition, and fund balances.

This assessment audit was conducted under the authority of RCW 43.09.260, which requires the State Auditor's Office to examine the financial affairs of all local governments at least once every three years. Assessment audits are risk-based, limited-scope reviews of small local governments, generally defined as school districts with 250 or fewer FTE students. To help minimize audit costs, our work for this engagement was conducted off-site primarily using financial and other information provided by the District.

This assessment audit was limited to the following:

- Reviewing meeting minutes for compliance with the Open Public Meetings Act.
- Inquiring as to internal controls over assets, revenues, and disbursements.
- Verifying that annual reports submitted to our Office were complete and filed timely in compliance with state law.

- Reviewing the District's annual revenues and expenditures for unusual transactions or trends.
- Corroborating financial information reported by the District by comparing its annual revenues, expenditures, and cash and investment balances to third-party sources.
- Reviewing expenditures for indications of unusual activities, excessive Board of Directors compensation, conflicts of interest, or procurement requirements.
- Evaluating the District's financial information for indications of financial difficulties.
- Using validation queries to verify the completeness and accuracy of WESPac data.
- Reviewing payroll transactions for unusual or excessive payments.
